

CATA-POLE

Built by:

- EASY TO BEND AT YOUR VAULTERS WEIGHT
- EXCEPTIONAL BALANCE AND CARRY WEIGHT
- DURABLE SMALL HANDLE GRIP

The CATA-POLE is built using the most recent Xlogic system of measure to insure the best flexural strength and recoil. Easy penetration and designed for vaulters who want personal records. Designed with a special inner wrap glass to increase pole return. CATA-POLE provides a smooth ride to allow a smooth transition for a vertical position on the pole.

This latest design offers a smaller handle for younger vaulters, MALES and FEMALES, for maximum confidence and pole control. This pole meets the NFHS weight capacity rule.

POLES CAN BREAK

Do not jump with any spiked, cracked, or damaged pole. Our digital flex test insures that each pole has been structurally flex tested as a final test of integrity. Each pole is engraved with a serial number and has a mark to determine the flex side toward the pit at plant. Never select a pole less than the vaulters weight. This is not a spot check! Broken vaulting poles will not be replaced and are sold without warranty. All risks are assumed by the user and a certified coach must be present at all time in training and in competition. Use only with regulation size vaulting systems. Protect your pole from spikes, falling to the ground or striking the standard.

CATAPOLE SELECTION CHART

1) SELECT BY VAULTER'S WEIGHT

2) THEN BY VAULTER'S HANDGRIP

HANDGRIP	Under 10'5"	Under 11'3"	Under 12'0"	Under 12'8"	12'6" to 13'4"	13'0" to 13'9"	13'6" to 14'5"
POLE LENGTH	10'8" 3.25M	11'5" 3.50M	12'4" 3.75M	13'1" 4.00M	13'7" 4.15M	14'1" 4.30M	14'7" 4.45M
VAULTER'S WT US LBS.							
80 lbs or less	ACP108X80

IMPORTANT!
ALL POLES SOLD WITH
NO WARRANTY.

SHIPPING & HANDLING:
\$75.00 PER POLE

SPECIAL CONSIDERATIONS

Move to a 10 lb. stiffer pole if your vaulter is faster or stronger than the normal vaulter. If your vaulter jumps over their handgrip, select a stiffer pole than their weight. For best results stay within the grip area and do not select a pole longer than 12" over the vaulter's best personal record.

PORTaPIT™

REPLACEMENT POLE TIPS

This tip is smooth on entry and made to last with carbon black in it's construction. OF and 1F have a reinforcement aluminum ring molded in to prevent the pole from shearing through the tip.

10'-14" - 130 LBS OR LESS

BS-AFOFXXXX \$9.49 EA

13'-15" - 160 LBS OR LESS

BS-AF1FXXXX \$9.49 EA
